CONTENTS

Introductory Words

Opening Address at the Symposium 'Seismotectonics and Paleoseismicity' 1
A. A. NIKONOV

Seismotectonics

World Map of Active Faults (Preliminary Results of Studies) 3
V. G. TRIFONOV

The Fundamental Characteristics of Active Faults in China 13
G. WEIMING, C. ZHAOEN and X. XIAOFENG

Neotectonics and Geodynamics of Mountain Systems of Central Asia 19
V. I. MAKAROV

Characteristics of Late Quaternary Activity Along the Southern Border Fault Zone of Weihe Graben Basin 25
Z. ANLIANG, Y. ZHONGTANG, Z. JIN and M. FENGSHOU

Considerations on the Significance of Some Post-Glacial Fault Scarps in the Abruzzo Apennines (Central Italy) 33
C. GIRAUDI

Paleoseismicity

The Stratigraphic Method in the Study of Large Past Earthquakes 47
A. A. NIKONOV

Palaeoseismic Studies in Greece: A Review 57
S. C. STIROS and P. A. PIRAZZOLI

Investigation of Earthquake Triggering for Deep-Seated Landslides, Taranaki, New Zealand 65
M. J. CROZIER, M. S. DEIMEL and J. S. SIMON

Paleoseismicity — The Swedish Case 75
N.-A. MÖRNER

Palaeoseismicity in the Gran Sasso Massif (Abruzzo, Central Italy) 81
C. GIRAUDI and M. FREZZOTTI
